

HELVETAS
Swiss Intercooperation

KOSOVO

TO WHOM IT MAY CONCERN

Helvetas Swiss Intercooperation, a Swiss Development Organization is implementing the project "Horticultural Promotion in Kosovo" (HPK) financed by the Swiss and Danish Governments. The goal of the project is the development of a dynamic horticulture agribusiness sector generating sustainable and broad-based employment and income for Kosovo producers.

Audit & Consulting Associates (ACA) conducted four training sessions on importance of planning/budgeting, taxation and financial accounting for our staff and vegetable collection centres supported by our project since 2009. The training sections were held on during month of May, 2012.

We were very pleased with the work performed by Audit & Consulting Associates, their professionalism, competence and due care.

We decided to continue our cooperation with ACA for provision of similar services and implementation to collection centres.

I would highly recommend you to consider Audit & Consulting Associates for similar projects.

Sincerely,

Mr. Heini Conrad
Project Manager, Horticultural Promotion in Kosovo
